VS Code interface showing a project named "BOOKMARK PROJECT" with files like `launch.json`, `controllers`, `models`, `views`, `books`, `addOrEdit.hbs`, `index.hbs`, `layouts`, `app-structure.txt`, `db.js`, `package-lock.json`, `package.json`, `README.md`, and `server.js`.

The `server.js` file is open, showing the following code:

```
1 const express = require('express')
2 const path = require('path')
3 const { engine } = require('express-handlebars')
4 const bodyParser = require('body-parser')
5
6 // Local imports
7
8 const connectDb = require('./db')
9 const bookRoutes = require('./controllers/book.controller')
10
11 const app = express()
12 app.use(bodyParser.urlencoded({ extended: true }))
13 app.use(bodyParser.json())
14
15
```

The terminal output shows the following logs:

```
[nodemon] watching extensions: js,mjs,cjs,json
[nodemon] starting `node server.js`
db connection succeeded.
server started at 3000.
[nodemon] restarting due to changes...
[nodemon] restarting due to changes...
[nodemon] starting `node server.js`
db connection succeeded.
server started at 3000.
```

The status bar at the bottom indicates the current file is `main.js`, the encoding is `UTF-8`, and the language is `JavaScript`.
